SERC ANNOUNCEMENT: 2017 RELIABILITY ASSESSMENT DATA AND NARRATIVE REQUEST

FROM THE DESK OF: Teresa Glaze

TO: SERC Data Collection Task Force (DCTF) and EC Reliability Review Subcommittee (RRS)

Applies to entities registered as RC, PA, BA, GO, GOP, TO, TOP

The SERC EC Reliability Review Subcommittee (RRS) is requesting your assistance in completing the 2017 Long Term Reliability Assessment. The data forms have been posted to the [SERC Reliability Portal](#). All data is due on March 1, 2017.

The data request and related assessment materials are available on the [Data Collection](#) page of the SERC website:

- [2017 Reliability Assessment Data Request](#)
- [2017 LTRA Data Request Template](#)
- Reporting Templates
- Reference Guides

In addition to the data included in this announcement, a supplemental data request will be distributed on January 30. The NERC Single Point of Disruption (SPOD) assessment will evaluate impacts to BPS reliability that occur as a result of disruptions and the loss of major natural gas infrastructure facilities (e.g., storage facilities, key pipeline segments, liquefied natural gas terminals).

On behalf of SERC's Engineering Committee and the Reliability Review Subcommittee, thank you for your support in the development of SERC's regional Reliability Assessments.

Questions may be directed to: [Teresa Glaze](#)

All other questions may be directed to [SERC Support](#).
